I am lost ? i have many questions ? where is the truth ? 🤯

All the previous three questions can be simplified to one ☝️

What is Islam ? 🕌

Islam is a simple yet deep and sophisticated religion in which one God creates and rules everything with wisdom, mercy, and justice, for a reason and a purpose. 🌐

Allah, the one and only God in Islam, is responsible & has sent a unified message and guidance through different messengers at different times for different people. While the details of the message varied according to the needs of each era and community, its core purpose and message and final goal and picture has always remained the same to establish and bring unity, peace, and prosperity. 💬

Jews, Christians, and Muslims are all followers of the same Islam, but they were named based on how they related to the messengers sent to them, each bringing a version of Islam with teachings and guidance most appropriate for their time and people.👥

Prophet Muhammad (peace be upon him) is the final messenger, sent by Allah with the last and complete version of Islam—one that is just, comprehensive, and suitable for humanity from his time until the Day of Judgment, with built-in flexibility to accommodate all future changes.🔚

Both the Quran which is the final book that holds the words of Allah & the life and words of his prohibit are what in-composes all Islam teachings & guidance.✌️

Open your heart to this guidance, for your fate and the fate of humanity depends on how much we seek, understand, and apply it. As long as you sincerely search for the truth and put in the effort to find it, Allah has promised to guide you and never leave you astray.🤍

Start little by little: 👶

1️⃣- Read the Quran and learn about its message.

2️⃣- Study the life of Prophet Muhammad (peace be upon him) to understand how he embodied and applied Islam.

3️⃣- You may also watch videos and ask other Muslims for guidance, but remember that human interpretations including me of course can sometimes include mistakes—whether intentional or unintentional. This is why always referring back to the Quran and authentic teachings of the Prophet is crucial.

4️⃣- Once you've taken these steps, visiting the nearest mosque to seek clear and appropriate guidance from knowledgeable people might be necessary.

I wish you, myself, and everyone the guidance and happiness that come from Allah. And remember: every journey begins with a few simple steps—just start and be willing to continue.🤲

One final word:

The media is a double-edged sword. It can guide you to knowledge and truth, or it can lead you astray ... it can lead you to where and how to fish or make you the fish at the dinner table of someone else.🎭

Best wishes.👍
